ABOUT

Tonya June Moore is a modern mystic, psychic performer, and storyteller who has captivated audiences across the American Southwest for over a decade. Now based in Las Vegas, Nevada, Tonya brings a rare alchemy of genuine intuitive gift, theatrical mastery, and the art of storytelling to every room she enters. Her immersive performances have graced luxury resort stages, intimate salons, and grand theatrical venues — drawing guests back to properties specifically to experience her work again. Red carpet host and media interviewer at the Sedona International Film Festival for twelve years, Tonya is a singular presence in the world of experiential entertainment. There is genuinely nothing else like her.

THE SIGNATURE EXPERIENCE

A 75 to 90 minute immersive group experience — not a booth, not a table — but a deeply personal performance woven with individual card moments, audience participation, and master storytelling custom-crafted for each event. Every performance is unique, guided entirely by the energy of the room and the people in it. Every guest receives something personal, something real, and something they will not stop talking about. Laughter, goosebumps, aha moments, sometimes happy tears. No two performances are ever the same. Ever.
